

'28 Days Later' Returns to Streaming After '28 Years Later' Trailer

Description

This person is not Cillian Murphy, as has been confirmed.

Sony

Danny Boyle and Alex Garland are reuniting after 22 years to create "28 Years Later", following the success of their original film, "28 Days Later", which is considered one of the most unique modern-day stories in cinema.

The new trailer for "28 Years Later" from Boyle and Garland is remarkable and is poised to become another classic in the zombie genre. Even this brief preview is one of the most unsettling trailers of the year. The movie is set to be released on June 20, 2025.

As for "28 Days Later", the film has been unavailable for legal viewing in any format for quite some time. However, Sony has announced that "28 Days Later" will soon be released digitally. Interested individuals can sign up on a page to be notified when the movie becomes available for preorder digitally. The exact release date is yet to be confirmed.

The disappearance of "28 Days Later" from streaming services highlights concerns about movies disappearing entirely from the digital era. This incident was mainly due to rights issues between different studios. The digital release may indicate that the film will be available for purchase rather than on streaming platforms.
