3 Star Wars shows to watch (and 2 to skip) on May 4

Description

"Star Wars" is currently experimenting with storytelling and introducing unknown characters in the universe. The timetable is uncertain, and it may be a while before success is found. Nevertheless, let's look at the original Star Wars TV shows available on Disney Plus. These shows can take fans and casual viewers on unforgettable journeys into the unknown.

Among the recommended shows, there are a few you can skip. It's Star Wars, so you don't need to watch everything to understand the broader story.

Let's start with the recommended shows. "Andor" is an excellent example. It's about a galaxy under threat and features Cassian Andor, a character from "Rogue One". Then there's "Star Wars: Visions", a series that explores the Star Wars universe without landing in the same canon. Finally, "Star Wars: The Clone Wars", a longstanding series that covers the time between "Episode 2: Attack of the Clones" and "Revenge of the Sith".

On the other hand, the "Book of Boba Fett" and "Obi-Wan Kenobi" are shows you could skip, as they don't contribute significantly to the overall narrative of Star Wars. They involve loved characters but lack a compelling story.

So if you're in the mood for an otherworldly adventure, Disney Plus's Star Wars world awaits you!
