

Artemis II Crew Experiences Overview Effect Perspective Shift

Description

The Artemis II astronauts flew around the moon. Pilot Victor Glover saw amazing views of the moon. He called it “sci-fi.” He was excited to see many details on the moon's surface, including meteors hitting it.

The crew felt lucky to view such a unique place. They remembered how special Earth is. Christina Koch felt amazed by the flyby. She also looked forward to the comforts of home.

Koch said they will explore more and build new ships. They will return to the moon and create science outposts. This shows the importance of Earth and people.

Astronauts often feel a strong connection to Earth while in space. This feeling is called the “overview effect.” It helps them see Earth’s beauty and understand that borders do not matter.

Jeremy Hansen, an astronaut on Artemis II, agreed. He felt that seeing Earth from the moon was a special experience. He and the team believe this view should inspire everyone to take better care of the planet.

Comprehension Questions

Multiple Choice

1. What did Pilot Victor Glover call the views of the moon?

- Option: Beautiful
- Option: Amazing
- Option: Sci-fi
- Option: Unique

2. Who is the astronaut looking forward to the comforts of home?

- Option: Victor Glover
- Option: Christina Koch
- Option: Jeremy Hansen
- Option: None of the above

3. What will the crew do upon returning to the moon?

- Option: Build new ships
- Option: Create science outposts

-
- Option: Explore more
 - Option: All of the above

4. What is the feeling called that astronauts experience as a strong connection to Earth?

- Option: Earth effect
- Option: Overview effect
- Option: Space effect
- Option: None of the above

5. Who felt that seeing Earth from the moon was a special experience?

- Option: Victor Glover
- Option: Christina Koch
- Option: Jeremy Hansen
- Option: All of the above

6. What did the astronauts feel lucky to view?

- Option: The moon
- Option: Earth
- Option: Stars
- Option: Planets

ESL-NEWS.COM

True-False

7. Victor Glover saw meteors hitting the moon.

8. Christina Koch wanted to stay in space forever.

9. The Artemis II crew views Earth as unimportant.

10. Jeremy Hansen believes everyone should take better care of the planet.

11. The overview effect makes astronauts feel more connected to Earth.

12. The crew has no plans to explore the moon further.

Gap-Fill

13. Pilot Victor Glover saw amazing views of the moon and called it _____.
14. Christina Koch felt amazed by the flyby and looked forward to the comforts of _____.
15. The crew will return to the moon and create _____ outposts.
16. The feeling called the 'overview effect' helps astronauts see Earth's _____.
17. The astronauts felt lucky to view such a _____ place.
18. Jeremy Hansen felt that seeing Earth from the moon was a _____ experience.

Answer

Multiple Choice: 1. Sci-fi 2. Christina Koch 3. All of the above 4. Overview effect 5. Jeremy Hansen 6. The moon

True-False: 7. True 8. False 9. False 10. True 11. True 12. False

Gap-Fill: 13. sci-fi 14. home 15. science 16. beauty 17. unique 18. special
