Naughty Dog

The Game Awards showcased new games from various developers, including Naughty Dog's Intergalactic. A sequel to Capcom's Okami and confirmation of The Witcher 4's development were also announced.

Game Changers

The event introduced the Game Changers Award, acknowledging wider industry issues. The winner, Amir Satvat, helped laid-off game developers find new work. Swen Vincke, from Larian Studios, stressed the importance of making games for passion rather than sales targets.
