## Blizzard May Revive Least Popular World of Warcraft Expansion

### Description

World of Warcraft's new expansion, Midnight, features a strong focus on the colour purple because of its main enemy, the Void. The expansion includes a bright purple beam in the sky, many purple enemies, and key areas, like raids and dungeons, filled with this colour. The main villain, Xal'atath, is also purple.

In an exciting twist, Blizzard has brought back a character that players love and hate. This character hints that we may return to the Shadowlands, an expansion that many players disliked.

In Midnight, Xal'atath tries to corrupt the Sunwell by creating something called the Darkwell. Players work to stop her. At the end of a key raid, Xal'atath frees a dark Naaru named L'ura, which allows her to complete the corruption. Players unite to defeat L'ura before she can use the Darkwell's power.

However, Xal'atath remains a threat. She is confronted by Sylvanas Windrunner, a character with a complicated past involving war crimes. Sylvanas suggests that not everything in the Shadowlands is as it seems, raising many questions for players.

This return of Sylvanas could mean changes for future storylines in World of Warcraft, but it is unclear what will happen next.
