

Blood of Dawnwalker PC System Requirements Unveiled

Description

The game The Blood of Dawnwalker has a release date. It will come out on September 3. Developer Rebel Wolves has shared the PC system requirements. These requirements are very high.

To run the game on minimum settings, players need a good graphics card, like the RTX 3050 or GTX 1070. This will allow the game to run at 1080p resolution and 30 frames per second (fps). If players want the best experience, they need an RTX 5090 graphics card. This card is very expensive. It costs almost £3,700 now.

The RTX 5090 will run the game at 4K resolution and 60fps. However, this does not include some extra features that can help improve graphics.

It is unclear if these high requirements are due to problems with the game's performance or if the game really needs this much power. Rebel Wolves has staff from CD Projekt Red, known for making high-quality games.

Once the game is released, tests will show how well it runs on different graphics cards.

Vocabulary List:

1. **release** //rɪ'liːs// (noun): the date something becomes available to people
2. **requirements** //rɪ'kwɪəmənts// (noun): things needed for something to work or run

6. **unclear** //ʌn'klɪr// (adjective): not easy to understand or not certain

Comprehension Questions

Multiple Choice

1. When is the release date of The Blood of Dawnwalker?

Option: September 1

Option: September 3

-
- Option: September 5
 - Option: September 10

2. Which graphics card is mentioned as part of the minimum requirements?

- Option: RTX 2060
- Option: RTX 3050
- Option: GTX 1660
- Option: GTX 1070

3. What resolution does the RTX 5090 support?

- Option: 1080p
- Option: 1440p
- Option: 4K
- Option: 8K

4. What is the cost of the RTX 5090 currently?

- Option: £1,500
- Option: £2,500
- Option: £3,700
- Option: £4,000

5. What frame rate does the game run at with the minimum graphics card settings?

- Option: 30 fps
- Option: 60 fps
- Option: 120 fps
- Option: 240 fps

6. Which company developed The Blood of Dawnwalker?

- Option: CD Projekt Red
- Option: Rebel Wolves
- Option: Naughty Dog
- Option: Ubisoft

True-False

7. The Blood of Dawnwalker is set to be released on September 10.

8. To run the game at minimum settings, an RTX 3050 graphics card is required.

-
9. The RTX 5090 is a budget-friendly graphics card.
 10. Rebel Wolves is known for making low-quality games.
 11. It is clear why the game has such high system requirements.
 12. The game will run at 60fps with an RTX 5090.

Gap-Fill

13. The Blood of Dawnwalker will come out on _____.
14. Players need a good graphics card like the RTX 3050 or _____.
15. The RTX 5090 can run the game at 4K resolution and _____.
16. The RTX 5090 costs almost _____ now.
17. It is unclear if the high requirements are due to performance problems or if the game needs this much power _____.
18. Once the game is released, tests will show how well it runs on different _____.

Answer

- Multiple Choice:** 1. September 3 2. RTX 3050 3. 4K 4. £3,700 5. 30 fps 6. Rebel Wolves
True-False: 7. False 8. True 9. False 10. False 11. False 12. True
Gap-Fill: 13. September 3 14. GTX 1070 15. 60fps 16. £3,700 17. really 18. graphics cards

Vocabulary quizzes

Multiple Choice (Select the Correct answer for each question.)

1. What does the term 'release' typically refer to in software development?
Option: The launch of a product
Option: The end of a project
Option: The beginning of development

-
- Option: The testing phase
2. What is the minimum requirement for a computer to run most modern games?
- Option: Low-end graphics card
 - Option: 8 GB RAM
 - Option: Windows 7
 - Option: High-end processor
3. Which factor primarily affects the performance of a video game?
- Option: Graphics quality
 - Option: Soundtrack
 - Option: Storyline
 - Option: Character development
4. Which type of graphics is generally considered the highest quality?
- Option: 2D
 - Option: 3D
 - Option: Pixel art
 - Option: Vector
5. Which type of gaming setup is typically the most expensive?
- Option: Console
 - Option: High-end gaming PC
 - Option: Mobile
 - Option: Budget laptop
6. What does the term 'species' refer to in biology?
- Option: A specific group of organisms
 - Option: The entire ecosystem
 - Option: A single organism
 - Option: A group of non-living things
7. What is typically announced during a game developer's presentation?
- Option: Game mechanics
 - Option: Release date
 - Option: Character names
 - Option: All of the above
8. What is a common model used for accessing gaming content today?

- Option: One-time purchase
- Option: Free-to-play
- Option: Subscription-based
- Option: Pay-per-download

9. What does the term 'lunar' refer to?

- Option: Related to the sun
- Option: Related to the moon
- Option: Related to the earth
- Option: Related to weather

10. What does a 'crossover' in games typically involve?

- Option: Different game genres
- Option: Multiple franchises
- Option: Single-player and multiplayer modes
- Option: All of the above

Gap-Fill (Fill in the blanks with the correct word from the vocabulary list.)

11. The screen's _____ is important for displaying high-quality graphics.
12. A game _____ is responsible for creating and implementing game content.
13. Every species has a specific _____ where it can thrive.
14. Scientists often conduct an _____ to test their hypotheses.
15. _____ affects how objects move in space.
16. The software was released in an _____ state and needed immediate patches.
17. Players need a subscription to _____ premium content.
18. The virus could _____ quickly if not contained.
19. The developers _____ that the game would launch next month.
20. The _____ of materials is an important factor in safety regulations.

Matching Sentences (Match each definition to the correct word from the vocabulary list.)

21. Bright colors and flashing lights tend to attract players to arcade games.
22. Games are often released on multiple platforms to reach a wider audience.
23. The story of the game progresses with each chapter that players complete.
