

Caroline Kennedy Amused by 'Love Story' Portrayal, Says Son

Description

Caroline Kennedy found amusement in Grace Gummer's portrayal of her younger self in Ryan Murphy's miniseries "Love Story," as stated by her son, Jack Schlossberg, on Wednesday. This revelation highlights the intersection of personal history and public entertainment, an important aspect given the delicate nature of representing living figures in media.

Schlossberg discussed watching clips of Gummer's performance with his mother, although they did not view all nine episodes of the FX series. "Love Story" chronicles the lives, marriage, and tragic death of Kennedy's brother, John F. Kennedy Jr., alongside his wife, Carolyn Bessette. The series concluded on March 26, drawing attention to notable historical narratives.

During a podcast interview with Katie Couric, Schlossberg focused primarily on his political aspirations as he campaigns for the U.S. House of Representatives in New York. Couric inquired about his views on the show, especially as he had publicly critiqued it since its February premiere. Schlossberg expressed concern over the programme's portrayal, stating, "We have serious problems facing our country, and my family. We're not just celebrities; we're public servants."

He emphasised his uncle's dedication to advancing significant social causes, particularly civil rights. Schlossberg described John as "a very serious person," lamenting that the show tended to sensationalise his romantic life while neglecting his public service contributions.

Despite his criticisms, Schlossberg and Kennedy found humour in one clip. He noted their laughter at a scene that comically exaggerated his mother's character. While Couric observed that Kennedy and Schlossberg's father received less flattering depictions, Schlossberg defended their integrity, calling them "the two nicest, most dignified, private people."

He clarified that, while he respects individuals who enjoy the series, viewers should remember it is ultimately a fictionalised account. Schlossberg proudly asserted his family's legacy of public service and advocacy for marginalised voices. He is not alone in voicing discontent; actress Daryl Hannah, who previously dated Kennedy Jr., has also publicly criticised the series in a New York Times essay, describing it as inaccurate and misrepresentative of her character and relationship.
