

Confidante says Prince Harry 'forced' King Charles to make tough choice between him and Queen Camilla

Description

A source from the royal family hinted at the reason why Prince Harry did not meet his father, King Charles, in London. The Duke of Sussex returned to the UK last week for the 10th anniversary of the Invictus Games. However, he did not meet with his estranged father as initially planned due to the king's busy schedule.

According to a close friend of the royal family, Harry may have "forced" his father to choose between him and his wife, Queen Camilla, which further strained their relationship. The source mentioned that Harry's public disdain for Camilla has put Charles in a difficult position as he loves both his sons and his wife.

The tensions between Harry and Camilla were also highlighted in Harry's controversial memoir, "Spare," where he referred to her as "dangerous" and "the villain." This, along with other demands made by Harry during the planned meeting with his father, led to its cancellation.

The fallout from Harry's memoir has left a deep scar on the royal family, particularly affecting the King and Queen. The book's criticism of Camilla and the strained relationship between Harry and his stepmother have added to the ongoing rift within the family.

Overall, the complex dynamics within the royal family and Harry's public statements have made it challenging for them to reconcile their differences and move forward. The impact of Harry's actions continues to be felt within the royal circle, causing further divisions and tensions to surface.
