

Debate stirred by Tatler magazine's portrait of Catherine, Princess of Wales

Description

A controversial new portrait of Catherine, Princess of Wales, has sparked debate among royal fans online. The painting, created by British-Zambian artist Hannah Uzor, graces the cover of the July issue of Tatler magazine. It aims to honor the "strength and dignity" of the princess, as stated by the publication. Uzor meticulously studied photographs of Catherine to capture her essence, as she couldn't meet her in person.

The portrait was inspired by Catherine's recent video announcement of a cancer diagnosis. While some viewers praised the artwork as "beautiful," others criticized it for lacking resemblance to the princess. Alastair Sooke, the chief art critic at The Daily Telegraph, described the painting as "intolerably bad" and lacking any likeness to its subject.

The backlash against the portrait mirrors a similar controversy surrounding the first official portrait of King Charles III. The large-scale painting by British artist Jonathan Yeo depicts the monarch in Welsh Guards uniform against a fiery red background. While the King reportedly approves of the portrait, some have criticized the bold red tones, comparing it to a "poster for a horror film."

Overall, the artistic portrayal of Catherine, Princess of Wales, has divided opinions, eliciting both praise and criticism from viewers and art critics alike. The debate surrounding royal portraits continues to captivate audiences and spark discussions about the intersection of art and royal representation.
