

Evil Corp's Hacking Duo: UK Exposes Father-Son Team

Description

The UK, US, and Australia have punished 16 people for cyber crimes. Evil Corp, a Russian group, stole \$300m over ten years. The gang's leader, Maksim Yakubets, got support from his father Viktor. The NCA exposed this as part of an operation against Evil Corp and LockBit. Yakubets was sanctioned in 2019 with a \$5m reward for his capture. Other Russians, including his brother Artem, were also punished. The NCA found Yakubets' family members were involved in the cyber crimes. Eduard Benderskiy, Maksim's father-in-law, protected the group with links to Russian security. The NCA is determined to bring them to justice. Aleksandr Ryzhenkov, connected to the gang LockBit, was also punished. This shows hackers work together for attacks. Four arrests were made in the UK, uncovering Evil Corp's ties to the Russian state. Sanctions aim to stop Russian cyber attacks.

Vocabulary List:

1. **Punished** /'pʌnɪʃt/ (verb): To impose a penalty on someone for a wrongdoing.

- Option: To facilitate international cooperation
- Option: To increase diplomatic relations
- Option: To stop Russian cyber attacks

Answer

Multiple Choice: 1. UK, US, Australia 2. \$300m 3. His father 4. 2019 5. His brother 6. To stop Russian cyber attacks

Vocabulary quizzes

Multiple Choice (Select the Correct answer for each question.)

1. Which medication is commonly used to treat epilepsy?
Option: Sodium valproate
Option: Ibuprofen
Option: Amoxicillin
Option: Aspirin
2. What prefix is commonly used to refer to things related to the internet or technology?
Option: Cyber
Option: Geo
Option: Bio
Option: Aero
3. Which term refers to measures taken to ensure safety and protection?
Option: Security
Option: Hospitality
Option: Flexibility
Option: Transparency
4. What are preserved remains or traces of ancient organisms called?
Option: Fossils
Option: Crystals
Option: Artifacts
Option: Inventions
5. What are the cells that transmit information in the nervous system?
Option: Neurons
Option: Platelets
Option: Fibroblasts
Option: Tendons
6. What term is used to describe an animal that is hunted and eaten by another?
Option: Prey
Option: Predator
Option: Herbivore
Option: Omnivore
7. What process converts information into a code to prevent unauthorized access?
Option: Encryption
Option: Decryption
Option: Transcription

Option: Translation

8. Which branch of science studies the structure of organisms and their parts?

Option: Anatomy

Option: Ecology

Option: Botany

Option: Astronomy

9. Which birds are known for their red breasts?

Option: Robins

Option: Crows

Option: Eagles

Option: Sparrows

10. What characteristic refers to the ability to walk on two legs?

Option: Bipedality

Option: Quadrupedality

Option: Flight

Option: Swimming

Gap-Fill (Fill in the blanks with the correct word from the vocabulary list.)

11. The company issued a product _____ due to safety concerns.
