

'Knights of the Old Republic' Animatic Reimagines Endar Spire Sequence

Description

An animatic of a scene from the *Endar Spire* tutorial has been shared online. This is from a remake of the game *Knights of the Old Republic* that was cancelled. The website MP1st shared the animatic along with early images of the game. These images match the footage shown of the *Endar Spire* scene.

The project is being redeveloped by Saber Interactive. The new videos show how the remake would have changed the original story. The latest version features a fully voiced player character, unlike the original game, which had only text options.

In the animatic, two characters join the player. They are Trask Ulgo, a tutorial partner, and Carth Onasi, a main character. The video begins after a fight on the *Endar Spire*. The player and Trask receive a message from Carth. Suddenly, an explosion opens a big hole in the ship. Trask saves the player by closing a door and restoring gravity.

The remake is now being developed by Saber Interactive. Meanwhile, a new game called *Fate of the Old Republic* is also in development.

Vocabulary List:
