

Liquefy Nazis Using Scientific Methods While Assisted by a Werebear in Ancient Sumerian's Times

Description

Devolver Digital recently unveiled a new game during the PC Gaming Show called Sumerian Six. Developed by Showgunners Artificer, this tactical stealth game follows the Enigma Squad, a group of elite scientists on a mission to thwart the Third Reich's plans for occult weapons. A demo of the first two chapters is now available on Steam, with the full game set for release later this year. The game features unique gameplay mechanics where each squad member possesses different scientific abilities to combat enemies. Sumerian Six promises a blend of weird science and tactical strategy, drawing comparisons to acclaimed strategy games like Shadow Tactics and Desperados III. Players can experience the gameplay firsthand by trying out the demo on Steam. Keep an eye out for Sumerian Six's full release for PC later this year, adding to Devolver Digital's 15th-anniversary celebrations.
