

Low COVID and Flu Vaccine Uptake Threatens Californians Before Thanksgiving

Description

Germany is facing a big challenge as it tries to reduce carbon dioxide emissions. A major concern is that emissions in the transport sector remain as high as they were in 1990. Despite efforts in other areas like industry and energy, where emissions have dropped, transport emissions have not improved.

The government has set a target to cut total emissions by 65% by 2030 compared to 1990 levels. Transport emissions make up about 20% of Germany's total. To reach this target, the government is implementing several strategies. These include promoting electric vehicles, expanding public transport, and investing in cycling infrastructure.

To encourage electric vehicle usage, the government is offering incentives like tax reductions and purchase rebates. This is aimed at making electric cars more affordable and attractive to consumers. However, the transition to electric vehicles faces challenges, including the need for more charging stations and improvements in battery technology.

Public transport is also a focus area. Germany is investing in expanding bus and train networks to make them more efficient and accessible. This should help reduce the number of cars on the road, leading to lower emissions.

Moreover, the government is encouraging people to use bicycles for short trips. They are building more bicycle lanes and implementing bike-sharing programs in cities. This initiative not only helps reduce emissions but also promotes healthier lifestyles.

Overall, Germany needs to take strong actions to meet its emissions goals. By investing in electric vehicles, public transport, and cycling infrastructure, the country aims to create a cleaner and more sustainable future.

Vocabulary List:

1. **Emissions** /ɪ'mɪʃənz/ (noun): The act of releasing something especially gas or radiation into the environment.
2. **Sustainable** /sə'steɪnəbl/ (adjective): Capable of being maintained at a certain rate or level especially in relation to environmental practices.
3. **Infrastructure** /ˈɪnfərˌstrʌktʃər/ (noun): The basic physical and organizational structures needed for the operation of a society or enterprise.
4. **Incentives** /ɪn'sentɪvz/ (noun): Something that motivates or encourages someone to do something.
5. **Accessible** /ək'sesəbl/ (adjective): Able to be reached or entered; easily approached or understood.
6. **Promoting** /prə'moʊtɪŋ/ (verb): To support or actively encourage a cause venture or aim.

Comprehension Questions

Multiple Choice

1. What percentage of Germany's total emissions are contributed by the transport sector?
Option: 10%
Option: 20%
Option: 30%
Option: 40%
2. Which sector has seen a decrease in emissions apart from the transport sector in Germany?
Option: Industry
Option: Agriculture
Option: Services
Option: Construction
3. What is one of the strategies Germany is implementing to reduce emissions in the transport sector?
Option: Promoting coal consumption
Option: Expanding public transport
Option: Increasing petrol prices
Option: Encouraging air travel
4. What challenge does the transition to electric vehicles face in Germany?
Option: Lack of government support

- Option: Excessive charging stations
- Option: Improvements in battery technology
- Option: High vehicle prices

5. Which mode of transportation is Germany currently focusing on expanding to reduce emissions?

- Option: Personal cars
- Option: Buses and trains
- Option: Airplanes
- Option: Hovercrafts

6. What health benefit is associated with the use of bicycles for short trips in Germany?

- Option: Reduced air pollution
- Option: Increased noise pollution
- Option: Lower physical activity
- Option: Increased obesity rates

True-False

- 7. Transport emissions in Germany have decreased since 1990.
- 8. The German government is offering incentives for the purchase of electric vehicles.
- 9. Expanding public transport can help reduce the number of cars on the road.
- 10. Germany is not investing in cycling infrastructure to promote sustainable transportation.
- 11. The goal to cut total emissions by 65% by 2030 is higher than the emissions in 1990.
- 12. Investing in electric vehicles, public transport, and cycling infrastructure can help Germany achieve a cleaner future.

Gap-Fill

- 13. Germany aims to reduce total emissions by 65% compared to 1990 levels by _____.
- 14. One of the challenges faced in the transition to electric vehicles is the need for improvements in battery technology and more charging _____.
- 15. The government is encouraging people to use bicycles for short trips to reduce emissions and promote

healthier _____.

16. A major concern in Germany is that emissions in the transport sector remain as high as they were in

_____.

17. By investing in electric vehicles, public transport, and cycling infrastructure, Germany aims to create a cleaner and more _____ future.

18. Public transport expansion in Germany is focused on making bus and train networks more efficient and

_____.

Answer

Multiple Choice: 1. 20% 2. Industry 3. Expanding public transport 4. Improvements in battery technology
5. Buses and trains 6. Reduced air pollution

True-False: 7. False 8. True 9. True 10. False 11. True 12. True

Gap-Fill: 13. 2030 14. stations 15. lifestyles 16. 1990 17. sustainable 18. accessible

Vocabulary quizzes

Multiple Choice (Select the Correct answer for each question.)

1. Who takes part in a competition or event?

Option: Vibrant

Option: Achievements

Option: Participants

Option: Community

2. What term is used to describe an occasion of festivity or joy?

Option: Nutrition

Option: Participants

Option: Celebration

Option: Community

3. Which word relates to the protection of the natural world?

Option: Encouraging

-
- Option: Recycled
Option: Environmentally
Option: Empowered
4. What resources and accommodations are provided for a specific purpose?
Option: Atmosphere
Option: Facilities
Option: Community
Option: Strolls
5. What process involves the transfer of pollen from one plant to another?
Option: Nutrient
Option: Pollination
Option: Balanced
Option: Participants
6. Which term refers to the ability to maintain at a certain rate or level?
Option: Empowered
Option: Techniques
Option: Sustainable
Option: Wildflower
7. What is the basic physical and organizational structures needed for the operation of a society?
Option: Surroundings
Option: Emissions
Option: Sustainable
Option: Infrastructure
8. What term is used to describe the right or opportunity to use or benefit from something?
Option: Incentives
Option: Promoting
Option: Access
Option: Accessible
9. What is the process of converting waste materials into reusable objects?
Option: Nutritious
Option: Recycled
Option: Inspiring
Option: Environmentally
10. Which term means giving support confidence or hope to someone?
Option: Encouraging
Option: Celebration

- Option: Community
- Option: Atmosphere

Gap-Fill (Fill in the blanks with the correct word from the vocabulary list.)

- 11. Taking leisurely _____ in the park can be relaxing.
- 12. Eating a diet rich in fruits and vegetables is important for good _____.
- 13. Through education individuals can become _____ to make positive changes in society.
- 14. The meadow was filled with colorful _____ attracting bees and butterflies.
- 15. Reducing carbon _____ is crucial for combating climate change.
- 16. Companies offer various _____ to encourage employees to perform better.
- 17. Marketing plays a key role in _____ products and services to consumers.
- 18. Recognizing one's _____ can boost self-confidence and motivation.
- 19. Building a strong sense of _____ can lead to collective progress and well-being.
- 20. Maintaining a clean and pleasant environment contributes to positive _____.

Matching Sentences (Match each definition to the correct word from the vocabulary list.)

21. The _____ of the stadium was filled with excitement and energy as fans cheered on their team.
22. These are the individuals who compete in the marathon.
23. The grand party thrown in honor of her promotion was a beautiful _____ of her hard work.
24. Mastering the art of watercolor requires learning various _____ and styles of painting.
25. The local _____ came together to organize a charity event for the homeless.
26. Protecting the _____ is essential for the well-being of future generations.

27. environmental awareness can lead to greater conservation efforts.
28. Making public spaces wheelchair-friendly ensures equal for all individuals.
29. The new sports complex offers state-of-the-art for athletes to train.
30. Her words of support were and helped him believe in himself.

Answer

Multiple Choice: 1. Participants 2. Celebration 3. Environmentally 4. Facilities 5. Pollination 6. Sustainable 7. Infrastructure 8. Access 9. Recycled 10. Encouraging

Gap-Fill: 11. strolls 12. nutrition 13. empowered 14. wildflowers 15. emissions 16. incentives 17. promoting 18. achievements 19. community 20. surroundings

Matching sentence: 1. Atmosphere 2. participants 3. celebration 4. techniques 5. community 6. environment 7. Promoting 8. Access 9. facilities 10. Encouraging
