

Men on Tiktok think BBLs smell bad, but women provide reasons why

Description

BBLs, which are Brazilian butt lifts, might make you smell bad, according to some men whose partners have had the procedure. One man on TikTok shared a story about a date with a woman who had a BBL. He said she smelled bad when she twerked for him. Many people responded to his post, agreeing that BBLs can cause unpleasant odors. Some women on TikTok explained that it's hard to clean properly after getting a BBL because the butt becomes harder and bigger. They suggest using a bidet or special soap to help with cleanliness. BBLs are popular, with over 21,000 performed in 2020. It's important to discuss these issues to find solutions that work.
