# Microsoft Releases Windows 11 Update to Boost PC Performance

## Description

Microsoft has released a new update for Windows 11. This update is called KB5089573. It aims to make computers faster and more reliable.

The update improves the speed of applications and important Windows features like the Start menu and Search. Microsoft says it also enhances how Windows works on sign-in and lock screens. It has benefits for File Explorer and touchscreens too.

Users have tested these changes and noticed real performance improvements. Some actions can now happen much faster, like opening apps. In some cases, certain tasks can be up to 70% quicker.

The update is available now, but users may not see changes right away. Microsoft will enable these improvements step by step over the next few weeks.

This update also adds new features. Users can connect Bluetooth with two devices at the same time. They can also name their devices during setup. To install the update, go to Windows Settings, then Windows Update, and check for optional updates.

---

## Vocabulary List:

1. **reliable** //rɪ'laɪəbəl// (adjective): can be trusted to work well
2. **applications** //,æplɪ'keɪʃənz// (noun): computer programs used for specific tasks
3. **enhances** //ɪn'hænsɪz// (verb): makes something work better than before
4. **performance** //pə'fɔrməns// (noun): how well a computer or program works
5. **optional** //'ɒpʃənəl// (adjective): not required; you can choose it or not
6. **enable** //ɪ'neɪbəl// (verb): to make something possible or allow it

## Comprehension Questions

### Multiple Choice

1. What is the update for Windows 11 called?

Option: KB5089573

- Option: KB5078001
- Option: KB5090213
- Option: KB5089571

2. What is one of the main aims of the KB5089573 update?

- Option: To improve graphics
- Option: To make computers faster
- Option: To change the user interface
- Option: To enhance security

3. How much quicker can certain tasks be after the update?

- Option: 50%
- Option: 60%
- Option: 70%
- Option: 80%

4. What new features does the update add for Bluetooth devices?

- Option: Connecting to three devices
- Option: Connecting to two devices
- Option: Name devices during setup
- Option: Both connecting and naming devices

5. Where can users check for the optional updates for Windows 11?

- Option: Control Panel
- Option: Task Manager
- Option: Windows Settings
- Option: Device Manager

6. What feature does the update improve related to application speed?

- Option: File Explorer
- Option: Start menu
- Option: Search
- Option: All of the above

### True-False

7. The KB5089573 update aims to make computers slower.

8. Users can connect Bluetooth with three devices at the same time after the update.
9. The update is available immediately without delay for all users.
10. Microsoft has released a new Windows 11 update named KB5089573.
11. The update includes enhancements for sign-in and lock screens.
12. Users have reported no performance improvements from the update.

### Gap-Fill

13. The update aims to make computers faster and more \_\_\_\_\_.
14. Some actions can now happen much faster, like opening \_\_\_\_\_.
15. The update enhances how Windows works on sign-in and lock \_\_\_\_\_.
16. To install the update, go to Windows Settings, then Windows Update, and check for \_\_\_\_\_ updates.
17. Microsoft will enable these improvements step by step over the next few \_\_\_\_\_.
18. Users can name their devices during \_\_\_\_\_ after connecting via Bluetooth.

### Answer

**Multiple Choice:** 1. KB5089573 2. To make computers faster 3. 70% 4. Both connecting and naming devices 5. Windows Settings 6. All of the above

**True-False:** 7. False 8. False 9. False 10. True 11. True 12. False

**Gap-Fill:** 13. reliable 14. apps 15. screens 16. optional 17. weeks 18. setup

### Vocabulary quizzes

**Multiple Choice ( Select the Correct answer for each question. )**

---

1. What is a commonly used tool for monitoring atmospheric conditions?

- Option: Satellite
- Option: Meteorite
- Option: Meteor
- Option: Sensor

2. What is the primary function of sensors in a security system?

- Option: To restrict access
- Option: To monitor environments
- Option: To enhance performance
- Option: To teleport data

3. What can happen when a meteor enters the Earth's atmosphere?

- Option: Teleportation
- Option: Explosion
- Option: Satelliting
- Option: Repository

4. What is often used to securely store data?

- Option: Patch
- Option: Repository
- Option: Application
- Option: Meteor

5. What can enhance the reliability of applications?

- Option: Patch
- Option: Performance
- Option: Restrict
- Option: Meteorite

6. What is essential for keeping servers secure and functional?

- Option: Downtime
- Option: Update
- Option: Explosion
- Option: Flaw

7. What can be used to limit user access to sensitive information?

- Option: Customize
- Option: Restrict
- Option: Monitor
- Option: Teleport

8. What is often needed to ensure security flaws are addressed?

- Option: Patch
- Option: Gap
- Option: Trend
- Option: Meteor

9. What should be monitored to ensure applications are up to date?

- Option: Medications
- Option: Trends
- Option: Sensors
- Option: Servers

10. What type of server is needed for optimal application performance?

- Option: Optional
- Option: Reliable
- Option: Customizable
- Option: Temporary

**Gap-Fill ( Fill in the blanks with the correct word from the vocabulary list. )**

11. To ensure maximum uptime, it's critical to minimize \_\_\_\_\_ during maintenance.

12. Many applications allow users to \_\_\_\_\_ their settings for better usability.

13. A good user interface \_\_\_\_\_ the overall user experience and satisfaction.

14. Some settings in the application are \_\_\_\_\_ and can be adjusted according to user preferences.

15. The weather forecasting system uses data from a \_\_\_\_\_ to predict storms.

16. To provide the best results, the sensors must be \_\_\_\_\_ and well-calibrated.

17. Identifying a security \_\_\_\_\_ early can prevent potential breaches.

18. Only authorized personnel should have \_\_\_\_\_ to sensitive data and systems.

19. Patients must manage their \_\_\_\_\_ carefully to avoid adverse reactions.

20. In the virtual world, we can \_\_\_\_\_ data across vast distances almost instantly.

**Matching Sentences ( Match each definition to the correct word from the vocabulary list. )**

21. A strong security system is essential to protect sensitive information from breaches.
22. Optimizing performance can significantly enhance user experience in applications.
23. Satellites are used to collect data on weather patterns and atmospheric conditions.
24. A meteorite is a fragment of a meteoroid that survives its passage through the atmosphere.
25. Software patches are crucial for fixing security flaws and improving functionality.
26. To ensure everything runs smoothly, it's important to monitor the system regularly.
27. Keeping an eye on industry trends allows organizations to stay competitive.
28. The explosion of a meteor can create spectacular fireballs in the night sky.
29. Policies are in place to restrict access to confidential documents.
30. Having a reliable backup system is vital to prevent data loss during unexpected events.

**Answer**

**Multiple Choice:** 1. Satellite 2. To monitor environments 3. Explosion 4. Repository 5. Performance 6. Update 7. Restrict 8. Patch 9. Trends 10. Reliable

**Gap-Fill:** 11. downtime 12. customize 13. enhances 14. optional 15. satellite 16. accurate 17. flaw 18. access 19. medications 20. teleport

**Matching sentence:** 1. security 2. performance 3. satellite 4. meteorite 5. patch 6. monitor 7. trends 8. explosion 9. restrict 10. reliable
