

# Morgan Wallen Snubs Grammys Over Industry Tensions

## Description

### Morgan Wallen Says No to the Grammys

Morgan Wallen, a country music star, has decided not to enter his new album, "I'm the Problem," for the Grammy Awards. His team said he won't submit any of the 37 songs from the album. This shows his tough relationship with music award shows.

Wallen has only two Grammy nominations. Both were for a song with Post Malone. He has never won a Grammy for his own music. He has also won only two awards at the CMA Awards, which is low for someone his size in the music world.

Last year, he won the Entertainer of the Year award but was not there to accept it. He later posted a picture of the trophy on Instagram without much excitement.

Wallen's decision about the Grammys might show he does not care much about awards. He is very popular and his songs are always on the Billboard charts. Even with problems in his past, like using a bad word, he continues to have hits. Many people still love his music, and he keeps making new songs.

## Vocabulary List:
