

New Moon on June 14, 2026, Brings Positive Changes for Four Zodiac Signs

Description

After the Gemini New Moon on June 14, four zodiac signs can expect positive changes in their lives. Astrologer Helena Hathor notes that this event offers a chance to improve one's situation over the next few years.

These changes will take time, but they bring good fortune. The New Moon in Gemini particularly affects people's identities and partnerships, especially in careers. A new collaboration may bring success for Gemini. At the same time, Venus, the planet of partnerships, is opposing Pluto, which could bring someone from the past back into your life for a second chance.

Sagittarius might also reconnect with a past lover during this New Moon. If so, it is important to communicate openly. Past misunderstandings can be addressed, allowing for a stronger bond to develop.

For Pisces, a surprise visit from someone from their past could lead to significant changes at home. The New Moon may bring a new living situation or even a move in with a partner, creating a better home life.

Finally, Virgo is entering a phase of major transformation. New beginnings will emerge that will reshape life positively until 2033. Although initial challenges may arise, they will ultimately lead to personal freedom and success.
