# Nintendo Enhances Backwards Compatibility for Switch 2 Games

## Description

Nintendo has updated some Switch games for the new Nintendo Switch 2. This news comes after a recent system update. Many games now work better on the new console.

One major game that has been fixed is Kirby's Return to Dream Land Deluxe. It had some sound problems before, but now players should not face these issues anymore.

A list of games fixed for backwards compatibility is available. These games include A Hat in Time, Doom (2016), and Final Fantasy 12: The Zodiac Age.

Some games still have problems. Games like Hoop Shoot and Teenage Mutant Ninja Turtles: Mutants Unleashed have issues with game progress.

Two other games, Pizza Tower and Laysara: Summit Kingdom, are working but have some issues. Pizza Tower may have graphics problems, and Laysara's touch-screen controls might not work well.

This week was important for Nintendo. The console had a big update that brought these fixes.
