

Nintendo Switch Users Gain Access to Free Wii and GameCube Games

Description

The Nintendo Wii and Nintendo GameCube games are now playable on the Nintendo Switch and Nintendo Switch 2 in 2026. This is important because it allows gamers to enjoy classic titles on modern consoles.

Over the years, the Nintendo Switch has built a large library of games. This includes new releases and re-releases like *The Legend of Zelda: Skyward Sword HD* and *Super Mario Galaxy*. However, many Wii and GameCube games have not been officially transferred to the Switch yet.

Recently, an emulator called Dolphin has been updated to work on the Nintendo Switch. This means players can now play many Wii and GameCube games on their Switch. Some tested games include *Luigi's Mansion*, *The Legend of Zelda: Twilight Princess*, and *Super Smash Bros. Melee*. The results vary, but many games are playable.

Despite some problems, developers are working to improve the experience. This development is exciting because it shows that the Nintendo Switch can become a great tool for playing older games. Although it is best not to rely on this yet, it may soon be a popular choice for gamers who want to play their favourite classic Nintendo games.

Vocabulary List:

1. **emulator** //ˈɛm.jə.leɪ.tə// (noun): program that copies another computer or device

Answer

Multiple Choice: 1. 2026 2. Super Mario Sunshine 3. Dolphin 4. Re-releases 5. The Legend of Zelda: Skyward Sword HD 6. Exciting

True-False: 7. False 8. True 9. False 10. False 11. False 12. True

Gap-Fill: 13. 2026 14. Dolphin 15. may 16. improve 17. popular 18. library

Vocabulary quizzes

Multiple Choice (Select the Correct answer for each question.)

-
1. What do satellites primarily monitor in Earth's orbit?
 - Option: Weather patterns
 - Option: Wildlife
 - Option: Urban development
 - Option: Cultural trends

 2. Which type of asteroids are considered potentially dangerous?
 - Option: Minor asteroids
 - Option: Hazardous asteroids
 - Option: Rocky asteroids
 - Option: Gas giants

 3. What force keeps satellites in orbit around the Earth?
 - Option: Friction
 - Option: Electromagnetism
 - Option: Gravity
 - Option: Momentum

 4. What term is used for a collection of data typically used for analysis?
 - Option: Database
 - Option: Dataset
 - Option: Spreadsheet
 - Option: Report

 5. What do astronomers often celebrate as a significant achievement in their field?
 - Option: Exploration
 - Option: Discovery
 - Option: Innovation
 - Option: Evolution

 6. What is a software that mimics the hardware or software environment called?
 - Option: Simulator
 - Option: Emulator
 - Option: Interpreter
 - Option: Compiler

 7. What term describes the collision of celestial bodies, often resulting in a significant event?
 - Option: Collision
 - Option: Impact
 - Option: Drift
 - Option: Passage

8. What is the unit of measurement for a very large amount of data, often used in datasets?

- Option: Gigabytes
- Option: Terabytes
- Option: Petabytes
- Option: Megabytes

9. What is the path called that a celestial body follows around another?

- Option: Sphere
- Option: Orbit
- Option: Radius
- Option: Axis

10. Who are the individuals primarily responsible for creating software applications?

- Option: Users
- Option: Analysts
- Option: Developers
- Option: Managers

Gap-Fill (Fill in the blanks with the correct word from the vocabulary list.)

11. The _____ ruins were discovered during the archaeological survey.

12. The _____ community has greatly contributed to the cultural landscape of the city.

13. Over the centuries, the continents have _____ apart due to tectonic activity.

14. Scientists use technology to _____ changes in the environment.

15. The _____ of the company's assets was conducted by financial analysts.

16. The new software _____ has attracted many customers.

17. The results of the national _____ indicated a need for more infrastructure.

18. The software has been _____ to improve its performance.

19. The game developers created a demo version that is _____ on multiple platforms.

20. The team's findings were _____ by independent researchers.

Matching Sentences (Match each definition to the correct word from the vocabulary list.)

21. Satellites travel in a predetermined orbit around the Earth.
22. The discovery of a new galaxy expanded our understanding of the universe.
23. Astronomers can detect asteroids that are on a collision course with Earth.
24. Some asteroids are classified as hazardous due to their size and proximity to Earth.
25. Astronomers study celestial bodies to better understand the universe.
26. Gravity is the force that binds celestial bodies in space.
27. Developers continuously update software to enhance user experience.
28. A large dataset can contain petabytes of information about different phenomena.
29. The latest research study generated petabytes of data for analysis.
30. A proper valuation of assets is crucial for investment decisions.
