# Simple Guide: Taking Great Solar Eclipse Photos with Your Phone

## Description

On Monday, a total solar eclipse will pass over North America. Many exciting events are planned, including concerts, parties, and a huge wedding!

Are you planning to watch this rare event? You might want to take pictures with your phone. But, are you wondering how to capture this moment perfectly with your phone camera? Don't worry! We have some great tips for you!

First, you can use your eclipse glasses or a sun filter to help your phone camera. You can press your glasses against your phone camera before the eclipse starts. This will help reduce over-brightness. When the sky gets dark, you can remove the glasses or the filter.

Next, use your phone's focus feature. You can tap and hold on your screen to keep your phone focused on the eclipse. You can also adjust the picture light. By moving your finger up and down on the screen, you can make your picture brighter or darker as needed.

Finally, to get a clear picture, use a stand or set up your phone to take pictures automatically. Also, don't zoom in too much because it can make the picture blurry.

Remember, this unique event is nearly a once-in-a-lifetime chance. Try to capture other moments also, such as people's reactions and the beautiful patterns made by the eclipse light. Have a wonderful time watching and capturing the special moments of the solar eclipse!

---

## Vocabulary quizzes

**Multiple Choice ( Select the Correct answer for each question. )**

- 
1. What celestial event occurs when the moon blocks the sun?  
Option: Solar Eclipse  
Option: Lunar Eclipse  
Option: Meteor Shower  
Option: Constellation
  2. What is a response to a given stimulus known as?  
Option: Action  
Option: Journey  
Option: Reaction  
Option: Decision
  3. Which term refers to the action of making something more modern or up to date?  
Option: Refresh  
Option: Update  
Option: Undo  
Option: Delay
  4. What technology involves creating intelligent machines?  
Option: Virtual Reality  
Option: Artificial Intelligence  
Option: Augmented Reality  
Option: Machine Learning
  5. Which technology allows for remote storage and processing of data?  
Option: Cloud Computing  
Option: Database Management  
Option: Local Storage  
Option: Networking
  6. Which term refers to objects in space such as stars and planets?  
Option: Terrestrial  
Option: Aquatic  
Option: Aerial  
Option: Celestial
  7. What is a flaw or error in software called?  
Option: Feature  
Option: Bug  
Option: Enhancement  
Option: Patch

8. Which term means the power to influence or direct people's behavior or the course of events?

- Option: Command
- Option: Control
- Option: Guidance
- Option: Supervision

9. What does a collaboration between two or more parties form?

- Option: Groups
- Option: Partnerships
- Option: Oppositions
- Option: Isolations

10. What term refers to combining one thing with another to make a whole?

- Option: Separate
- Option: Converge
- Option: Integrate
- Option: Divide

**Gap-Fill ( Fill in the blanks with the correct word from the vocabulary list. )**

11. A photograph is a \_\_\_\_\_ of a specific moment in time.
