# Thank Elon Musk if You're Using Claude

## Description

I went to Anthropic's developer conference in San Francisco this week. The big news is that Anthropic will rent AI computing power from SpaceX, a large company run by Elon Musk. This deal will help improve the speed and performance of Claude, Anthropic's AI chatbot.

Anthropic CEO Dario Amodei had previously criticized AI companies for making too many similar deals. Now, he is following the same strategy because the demand for AI is much higher than the supply. Recently, Anthropic faced problems with outages and slow performance, which upset many developers who use their services.

Amodei said at the conference, "We have had difficulties with computing power. We are sorry for the delays, but we are working to get more." Following the SpaceX announcement, Anthropic reduced some limits on its services, especially for Claude Code, which is an AI tool for coding.

Many startups and tech companies expressed their need for more AI capacity at the conference. Anthropic plans to access the new SpaceX computing resources within the month, which could help meet this growing demand. If Anthropic continues to grow like this, it may become one of the highest-revenue companies in the world.

---

## Vocabulary List:

1. **computing** //kəm'pju:tɪŋ// (adjective): connected with using computers to do work
2. **outages** //'aʊtɪdʒɪz// (noun): times when a service or system stops working
3. **demand** //dɪ'mænd// (noun): how much people want a product or service
4. **supply** //sə'plai// (noun): the amount of product or service available
5. **capacity** //kə'pæsɪti// (noun): the maximum amount something can hold or do
6. **revenue** //'revə,nu:// (noun): money a company receives from selling goods or services

## Comprehension Questions

### Multiple Choice

1. Where did the Anthropic developer conference take place?

- Option: New York
- Option: San Francisco
- Option: Chicago
- Option: Los Angeles

2. Who is the CEO of Anthropic?

- Option: Elon Musk
- Option: Dario Amodei
- Option: Tim Cook
- Option: Sundar Pichai

3. Which company is Anthropic renting AI computing power from?

- Option: Amazon
- Option: Microsoft
- Option: SpaceX
- Option: Google

4. What is the name of Anthropic's AI chatbot?

- Option: Claude
- Option: Alexa
- Option: Cortana
- Option: Siri

5. What issue did Anthropic face that upset developers?

- Option: Poor marketing
- Option: High costs
- Option: Outages and slow performance
- Option: Lack of features

6. How did Anthropic plan to assist with the growing demand for AI?

- Option: Reducing prices
- Option: Increasing features
- Option: Accessing new computing resources from SpaceX
- Option: Hiring more employees

### True-False

7. Dario Amodei has always supported AI companies making similar deals.

- 
8. Anthropic's AI tool for coding is called Claude Code.
  9. Anthropic intends to access SpaceX's computing resources within the next year.
  10. The demand for AI has been reported as lower than the supply.
  11. Anthropic's recent problems were related to service outages.
  12. The Leader of Anthropic apologized for delays in service at the conference.

### Gap-Fill

13. The big news at the conference is that Anthropic will rent AI computing power from \_\_\_\_\_
14. Dario Amodei criticized AI companies for making too many similar \_\_\_\_\_
15. Anthropic faced problems with outages and slow \_\_\_\_\_
16. Amodei mentioned that they are working to get more computing \_\_\_\_\_
17. Many startups expressed their need for more AI \_\_\_\_\_ at the conference.
18. Anthropic plans to access the new SpaceX computing resources within the \_\_\_\_\_

### Answer

**Multiple Choice:** 1. San Francisco 2. Dario Amodei 3. SpaceX 4. Claude 5. Outages and slow performance  
6. Accessing new computing resources from SpaceX

**True-False:** 7. False 8. True 9. False 10. False 11. True 12. True

**Gap-Fill:** 13. SpaceX 14. deals 15. performance 16. power 17. capacity 18. month
