

## The 'Star Wars' Series Commands Respect

### Description

The original Star Wars trilogy only briefly features the Jedi, with Obi-Wan and Yoda living as hermits and passing on their knowledge to Luke Skywalker. The Jedi are portrayed as a symbol of wisdom and power, but their downfall is later revealed to be due to their own flaws. The newest Disney+ series, *The Acolyte*, explores the darker side of the Jedi Order, showing them as smug and complacent. The story follows Mae, seeking revenge on Jedi masters who were involved in a family tragedy. However, the execution of the story is uneven, with some characters and plot points feeling underdeveloped. While the series attempts to challenge the traditional Jedi narrative, it falls short in fully exploring its themes. Despite some interesting elements, *The Acolyte* currently lacks the depth and excitement of other Star Wars projects. Viewers can watch the first two episodes tonight, with weekly releases following.
