## Tomodachi Life Tops UK Charts in Debut Week

### Description

In a surprising development, *Tomodachi Life: Living the Dream* has secured the top position in the latest UK gaming charts shortly after its release. This debut is notable as it outperformed *Pragmata*, a multi-platform title from Capcom, which only managed 13% of its sales through the Switch 2 console.

This week's chart movement indicates that *Resident Evil Requiem* has fallen to third place, while *Pokémon Pokopia* has dropped significantly to sixth. The resurgence of *Marvel Cosmic Invasion*, which recently launched physically, has attracted a new audience, contributing to its climb in popularity.

The shift in rankings highlights the competitive nature of the gaming industry, especially with the recent entries breaking into the market. The sales performance of these new titles suggests a robust interest from consumers, countering initial assumptions that the time gap between releases might have reduced enthusiasm.

The platforms remain diverse, with a noticeable distribution of sales across various consoles. For instance, *Pragmata* registered 81% of its sales on the PlayStation 5, while only a small fraction was acquired on the Switch 2. Similarly, *Resident Evil Requiem* displayed strong sales on PC and PlayStation consoles.

Next week's charts are anticipated to provide further insights as established titles may respond to this shake-up. Observers will be keen to see if *Tomodachi Life: Living the Dream* can maintain its momentum in the subsequent week or if the competition will regain ground.
