# Trump Highlights Micron's £250 Billion Chip Investment

## Description

Micron Technology is set to invest \$250 billion in semiconductor manufacturing in the United States. This will include the construction of what the company claims will be the largest chip manufacturing site in American history, located in Clay, New York. This significant investment highlights the rising demand for memory chips, particularly due to advancements in artificial intelligence (AI).

The company, based in Boise, Idaho, aims to produce 40% of its DRAM memory chips domestically. Micron expects to spend this substantial amount by 2035 to meet increasing market needs. President Donald Trump praised the investment on social media, attributing the announcement to his administration's economic policies.

Trump has previously criticized past Democratic administrations for holding back American manufacturing. He stated that regulations from the "Radical Left" harmed job creation. Micron's new facility is projected to create around 50,000 jobs in New York, including 9,000 directly at Micron, with roles for skilled workers and apprenticeships.

Micron's president, Sanjay Mehrotra, also mentioned increasing the planned investment from \$200 billion to \$250 billion, which he describes as indicative of positive economic growth in the sector. This project not only aims to strengthen domestic production but is crucial for national economic security.

The investment reflects a commitment to reviving American manufacturing, creating numerous job opportunities, and supporting local businesses. As construction progresses, thousands of jobs are anticipated to become available across various trades and specialties.

## Vocabulary List:

1. **semiconductor** //,semɪkən'dʌktər// (noun): material that controls electricity in electronic devices
2. **manufacturing** //,mænjə'fæktʃərɪŋ// (noun): making goods in factories on a large scale
3. **investment** //ɪn'vestmənt// (noun): money put into something to get future returns
4. **domestically** //də'mɛstɪkli// (adverb): inside a country rather than in other countries
5. **apprenticeships** //ə'prɛntɪs,ʃɪps// (noun): programs where people learn a job while working
6. **sector** //'sɛktər// (noun): a part of the economy or industry

## Comprehension Questions

---

## Multiple Choice

1. How much is Micron Technology set to invest in semiconductor manufacturing?  
Option: \$100 billion  
Option: \$150 billion  
Option: \$200 billion  
Option: \$250 billion
2. Where is the largest chip manufacturing site claimed to be built?  
Option: Boise, Idaho  
Option: Clay, New York  
Option: Silicon Valley, California  
Option: Austin, Texas
3. What percentage of its DRAM memory chips does Micron aim to produce domestically?  
Option: 30%  
Option: 40%  
Option: 50%  
Option: 60%
4. By what year does Micron expect to spend the \$250 billion investment?  
Option: 2025  
Option: 2030  
Option: 2035  
Option: 2040
5. How many jobs is Micron's new facility projected to create in New York?  
Option: 30,000  
Option: 40,000  
Option: 50,000  
Option: 60,000
6. Who praised Micron's investment on social media?  
Option: President Joe Biden  
Option: Senator Chuck Schumer  
Option: President Donald Trump  
Option: Governor Kathy Hochul

---

### True-False

7. Micron Technology is investing in semiconductor manufacturing in Canada.
8. The new chip manufacturing site will create jobs for skilled workers and apprenticeships.
9. Micron's president Sanjay Mehrotra initially planned a \$250 billion investment.
10. The investment in semiconductor manufacturing is attributed to past Democratic administrations.
11. Micron is based in Clay, New York.
12. Regulations from the 'Radical Left' are said to have harmed job creation according to Donald Trump.

### Gap-Fill

13. Micron Technology claims its new facility will be the largest chip manufacturing site in American history, located in \_\_\_\_\_ New York.
14. Micron expects to produce 40% of its DRAM memory chips \_\_\_\_\_.
15. The investment will be completed by the year \_\_\_\_\_ to meet market needs.
16. President Donald Trump praised the investment on \_\_\_\_\_ media.
17. The investment reflects a commitment to reviving American \_\_\_\_\_ and creating job opportunities.
18. Micron's new facility is expected to create around 50,000 jobs, including \_\_\_\_\_ directly at Micron.

### Answer

**Multiple Choice:** 1. \$250 billion 2. Clay, New York 3. 40% 4. 2035 5. 50,000 6. President Donald Trump

**True-False:** 7. False 8. True 9. False 10. False 11. False 12. True

**Gap-Fill:** 13. Clay 14. domestically 15. 2035 16. social 17. manufacturing 18. 9,000
