# Trump's Policies Impact EV Industry as Demand Grows

## Description

General Motors has launched a new car, the 2027 Chevrolet Bolt, which is an affordable all-electric vehicle. This car allows drivers to avoid high petrol prices, particularly due to the ongoing conflict in Iran. However, customers need to act quickly, as production of the Bolt will end next year. GM plans to change its Kansas City factory to make traditional engine vehicles instead.

GM has said it decided to limit the Bolt's production some time ago but remains focused on making other electric vehicles. However, they have reduced their overall electric vehicle goals, including halting plans to change more factories for electric vehicle production. Other car companies, like Honda, have also cancelled their plans for electric vehicles.

There are many reasons why companies are pulling back from electric vehicle production. One significant factor is former President Donald Trump, who worked to remove tax benefits for electric vehicles and made changes to emissions regulations that supported fuel efficiency.

As gas prices rise, more customers are expressing interest in electric vehicles. This trend is likely to continue as fuel costs remain high. Many American consumers are searching for alternatives, but car manufacturers may struggle to meet this growing demand.

This situation is reminiscent of the 1970s oil crises when American automakers failed to adapt to shifts in market demand for fuel-efficient vehicles. Now, they face a similar challenge.

---

## Vocabulary List:

1. **production** //prə'dʌkʃən// (noun): the making of goods in a factory or company
2. **emissions** //ɪ'mɪʃənz// (noun): gases given off by cars or factories
3. **affordable** //ə'fɔrdəbəl// (adjective): not too expensive; most people can afford it
4. **ongoing** //'ɒn,ɡoʊɪŋ// (adjective): continuing now and not finished yet
5. **reminiscent** //,rɛmɪ'nɪsənt// (adjective): making someone think of earlier times or events
6. **adapt** //ə'dæpt// (verb): to change the way you act for new situations

## Comprehension Questions

---

## Multiple Choice

1. What is the name of the new car launched by General Motors?  
Option: 2027 Chevrolet Bolt  
Option: 2027 Ford Focus  
Option: 2027 Toyota Prius  
Option: 2027 Tesla Model 3
  
2. Why should customers act quickly regarding the Chevrolet Bolt?  
Option: Production will end next year  
Option: It is a limited edition  
Option: Prices will increase  
Option: It has a recall
  
3. What type of vehicles is GM planning to make instead of the Bolt?  
Option: Hybrid vehicles  
Option: Traditional engine vehicles  
Option: Electric scooters  
Option: Luxury electric vehicles
  
4. Which former president focused on removing tax benefits for electric vehicles?  
Option: Barack Obama  
Option: George W. Bush  
Option: Donald Trump  
Option: Joe Biden
  
5. What industry trend is occurring as gas prices rise?  
Option: Decreased interest in electric vehicles  
Option: Increased interest in electric vehicles  
Option: Stable interest in fossil fuel vehicles  
Option: Interest in self-driving cars
  
6. Which company has cancelled its plans for electric vehicles along with GM?  
Option: Toyota  
Option: Honda  
Option: Ford  
Option: Nissan

---

**True-False**

7. The production of the Chevrolet Bolt will continue after next year.
8. General Motors is focusing solely on electric vehicles now.
9. Historically, the 1970s oil crises taught automakers about the importance of fuel-efficient vehicles.
10. GM plans to expand its electric vehicle production by converting more factories.
11. Donald Trump supported tax benefits for electric vehicles during his presidency.
12. There is a growing demand for electric vehicles due to rising fuel costs.

**Gap-Fill**

13. General Motors has launched the 2027 Chevrolet Bolt, which is an affordable all-electric vehicle that allows drivers to avoid \_\_\_\_\_ high petrol prices.
14. GM plans to change its Kansas City factory to make \_\_\_\_\_ engine vehicles instead.
15. One significant factor impacting electric vehicle production is changes made by former President \_\_\_\_\_ Trump.
16. This situation is reminiscent of the \_\_\_\_\_ oil crises when American automakers failed to adapt.
17. Manufacturers are struggling to meet the growing demand for electric vehicles as more customers express \_\_\_\_\_ interest.
18. Due to rising gas prices, consumers are searching for \_\_\_\_\_ in the form of electric vehicles.
