

Ultimate Guide to Electric Vehicles: Get Informed & Inspired

Description

US President Donald Trump recently bought a red Tesla Model S to support Elon Musk's company. He picked the red car from a few options outside the White House. Trump said, "I wanted to buy a Tesla when I saw what was happening, so I just went to the front. He had four beautiful cars there, and I bought one in front of the press. It was a very public purchase."

The Model S is Tesla's first mass-market electric vehicle. It has a high-resolution touchscreen, advanced technology, and safety features. The car offers autopilot, self-driving capabilities, and a yoke steering wheel like Formula 1 cars.

Other features of the Model S include a 17-inch touchscreen with amazing resolution, rear passenger display, and Sentry Mode for security. It also has an air filtration system that filters out pollutants and allergens.

The Model S will be available in India by January 2026 with a starting price of Rs 70 lakh.
