

# Vets are Concerned about Anti-vax Pet Owners Opposing Rabies Shots

## Description

Increasingly, pet owners are concerned about getting their pets vaccinated. This increase in "**vaccine hesitancy**" has professionals worried about the possible comeback of dangerous diseases like rabies. Rabies is a virus which is nearly always **fatal** once contracted.

Many owners worry that vaccinations may cause health problems in their pets, including shortening their lifespan or causing conditions like **autism**. However, experts state that autism is a uniquely human condition, and express concern that not vaccinating pets, particularly against rabies, can have severe public health consequences.

Dr. Rena Carlson from the American Veterinary Medical Association stresses the importance of discussing vaccinations with your veterinarian to understand the risks for your pet. Dr. Rena added, "Although we don't see a lot of rabies, it's usually 100% fatal. So, it's very important to vaccinate your pet against it".

Therefore, all pet owners are advised to have a serious discussion about vaccinations with their veterinarian to ensure the health and **longevity** of their animal companions.

## Vocabulary quizzes

### Multiple Choice ( Select the Correct answer for each question. )

1. Which medical procedure is used to prevent certain diseases?  
Option: Circadian rhythms  
Option: Vaccinations  
Option: Deep Brain Stimulation  
Option: Hypochondriac
2. Which term refers to a feeling of worry nervousness or unease about something with an uncertain outcome?  
Option: Longevity  
Option: Insomnia  
Option: Hypochondriac  
Option: Anxiety
3. Which neurological disorder primarily affects motor functions and is characterized by tremors and stiffness?  
Option: Perceives  
Option: Parkinson Disease  
Option: Leptospirosis

---

Option: Rabies

4. Which term refers to the general well-being of individuals and societies including both physical and mental aspects?

Option: Quality of Life

Option: Fatal

Option: Complex

Option: Awareness

5. What field of study focuses on developing new treatments and understanding human health and diseases?

Option: Fear

Option: Biomedical research

Option: Overeat

Option: Preventive

6. Which condition is characterized by pauses in breathing during sleep?

Option: Exposure

Option: Sleep apnea

Option: Misdiagnosed

Option: Severe

7. What behavior involves consuming food in excess of the body's energy requirements?

Option: Obsession

Option: Longevity

Option: Overeat

Option: Fear

8. What can happen when a medical condition is incorrectly identified or labeled?

Option: Type 2 diabetes

Option: Misdiagnosed

Option: Rabies

Option: Symptoms

9. Which chronic condition is characterized by high levels of blood sugar resulting from the body's ineffective use of insulin?

Option: Biomedical research

Option: Anxiety

Option: Type 2 diabetes

Option: Awareness

10. Which viral disease usually transmitted through the bite of an infected animal can be prevented through vaccination?

- Option: Rabies
- Option: Deep Brain Stimulation
- Option: Hesitancy
- Option: Anxiety

**Gap-Fill ( Fill in the blanks with the correct word from the vocabulary list. )**

11. \_\_\_\_\_ is an emotional response induced by a perceived threat which causes a change in brain and organ function.
12. A hypochondriac often wrongly \_\_\_\_\_ normal bodily sensations as signs of serious illness.
13. \_\_\_\_\_ is a common sleep disorder characterized by difficulty falling asleep or staying asleep.
14. Increasing public \_\_\_\_\_ about the importance of regular exercise can lead to better health outcomes.
15. Deep Brain Stimulation is a surgical procedure used to treat movement problems like severe \_\_\_\_\_ in patients with conditions such as Parkinson Disease.
16. Effective preventive measures can reduce the risk of disease \_\_\_\_\_ to harmful pathogens.
17. The interplay of genetics and environmental factors can make diagnosing certain diseases quite \_\_\_\_\_.
18. Without appropriate treatment some cases of leptospirosis can be \_\_\_\_\_.
19. A healthy lifestyle and regular medical check-ups can contribute to a longer \_\_\_\_\_.
20. Get vaccinated as a \_\_\_\_\_ measure to avoid contracting diseases like rabies or

influenza.

**Matching Sentences ( Match each definition to the correct word from the vocabulary list. )**

21. Some individuals exhibit vaccine due to concerns about potential side effects or misinformation.
22. Parents of children with often seek out early intervention programs and specialized therapy.
23. People with obsessive-compulsive disorder may experience intrusive thoughts or repetitive behaviors related to their .
24. Advancements in have led to breakthroughs in understanding complex diseases and developing targeted therapies.
