

Weekly Crypto Winners and Losers: OM, BONK, HNT, FET

Description

- *Peanut the Squirrel, Mantra, and Bonk had the largest gains last week.*
- *Helium, Lido DAO, and Artificial Super Intelligence Alliance saw the biggest losses last week.*

In the previous week, the crypto market mostly went up with very few losers. This week, there are more losers, but Peanut the Squirrel [PNUT] gained over 1,000%.

However, Helium [HNT] was one of the losers, dropping almost the same as the second-biggest loser.

Top Winners

Peanut the Squirrel [PNUT]

PNUT started strong and reached over \$2.00, but closed the week at around \$1.59 after a slight dip. Despite this, it led the weekly gainers with a 1,400% increase.

PNUT's market cap decreased by 12% to approximately \$1.62 billion, with trading volume at \$1.4 billion after a 50% drop in the last 24 hours.

The volatility of new entries was evident in PNUT's price movements.

Mantra [OM]

OM surged past \$2.50 from \$1.50, marking a 133% weekly gain.

OM is now trading at \$3.32 with a 29.35% increase in the past 24 hours.

Its market cap rose by almost 47% to over \$2.8 billion, with trading volume at \$575 million.

The strong momentum of OM indicated continued investor interest.

Bonk [BONK]

BONK increased from \$0.00002544 to near \$0.00004743 by the end of the week, making it the third-largest gainer with a 123% increase.

Current trading price for BONK is \$0.00005139, up almost 8%. The RSI remains in overbought territory at 85.4.

BONK's market cap rose by 28% to approximately \$3.4 billion, with trading volume increasing by 43% to \$2.4 billion, showing strong market interest.

Top 1,000 Gainers

First Convicted Racoon [FRED] led the top gainers with a 3,120% increase, followed by Act I The AI Prophecy [ACT] and Dasha [VVAIFU] with 2,771% and 2,623% gains, respectively.

Top Losers

Helium [HNT]

HNT started at \$6.66 but closed at \$6.13, indicating a 13% decline and making it the biggest loser of the week.

The market capitalization of HNT was around \$1 billion, with a trading volume of \$15 million. The RSI was at 47, showing neutral momentum.

HNT needs to regain the \$6.57 resistance level to recover.

Artificial Super Intelligence Alliance [FET]

FET began the week at \$1.44, reached \$1.58, and closed at \$1.30, recording a 12.6% decline and securing its position as the second-biggest loser.

The decline in FET was amid market fluctuations, highlighting the challenges faced by the token.

Lido DAO [LDO]

LDO saw a 12.5% weekly decline, starting at \$1.28 and ending at \$1.21. Current price is \$1.10 with heightened trading activity despite the declining price.

LDO's market cap dropped slightly to approximately \$1 billion, with trading volume increasing by 26% to \$176 million.

Top 1,000 Losers

Acet [ACT] suffered the most significant loss among the top 1,000 tokens with a 54% decline, followed by Wexo [WEXO] with a 53% drop and PAAL AI [PAAL] with a 52% decrease.

Conclusion

This weekly recap highlights the biggest gainers and losers in the crypto market. Remember, market prices can change rapidly, so conducting your research before investing is crucial.
